## ORDER FORM FOR ELECTRICAL CONNECTIONS

### GENERAL REGULATIONS ABOUT ORDERING ELECTRICAL CONNECTIONS

#### Regulations

The electrical installations are subject to Swiss legislation (EIG and NIV) as well as SEV regulations (SN SEV NIN 1000:2010)

Energy consumption of up to and including 32A must connect an FI safety switch (In=30mA)

#### Note on safety

For the following installations, the evidence of safety (NIV Art. 37) must be provided to Messe Zürich before the beginning of the exhibition:

- Electrical distributor
- Plugged connections up to and including 32A
- Installations with fixed connections to distributors

#### Voltage

Mains voltage, 3 x 230V/400V 50 Hz (24 hrs.). For other operating voltages, exhibitors must provide their own transformers.

**Orders received after the submission deadline are subject to an added charge up to CHF 300.00.**

#### Tariffs for consumption of energy

All prices are without consumption. The consumption will be charged separately with the mandatory fees of waste disposal & power consumption.

#### Sockets

Messe Zürich only mounts main connection onto sockets/couplings.

From the main connection, the stand installation can be carried out independently using extension cables and multiple plugs.

#### Contravention/liability

Own connections are not permitted. In case of faulty installations, Messe Zürich, reserve the right to block these connections. The exhibitor is liable for damage and disturbances that arise from the failure to observe the General Regulations of the Exhibition, the general regulations pertaining to this form or the instructions given by Exhibition's employees. Legal domicile Zurich.

Court of jurisdiction is Zurich.

Please draw the preferred positions in the sketch.
